- Database Management

Education and training

Certificate in Front-End Development1 Apr 24 - Present

SheCodes Bootcamp

- Completed hands-on projects, including building responsive websites using HTML, CSS, and JavaScript.
- Gained exposure to hosting and deploying websites, as well as integrating third-party APIs.
- Learned version control best practices through Git and GitHub

Abilities

Proficient in front-end technologies such as HTML, CSS, and JavaScript

Experience with back-end technologies like Node.js and Express

Strong understanding of database management systems like MySQL and MongoDB

Ability to work collaboratively in an Agile environment

Excellent problem-solving skills

Strong attention to detail

Personal skills

- Communication skills
- Excellent communication skills developed through collaborative projects and team-based
- Organisational / managerial skills

Strong organizational skills demonstrated through effective project management and time management.

Job-related skills

- Problem-Solving: Able to break down complex tasks into manageable components and troubleshoot code effectively.
- Attention to Detail: Focused on writing clean, readable, and maintainable code.
- Collaboration: Experienced in collaborating with teams using GitHub for version control and project coordination.
- Adaptability: Quick to learn new tools, technologies, and programming languages.
- Time Management: Able to manage deadlines and prioritize tasks effectively.
- Self-Motivation: Passionate about continuous learning and improving coding skills independently

Digital skills

Technical Skills

- Languages: HTML, CSS, JavaScript
- Development Tools: Visual Studio Code (VSCode), Git, GitHub
- Technologies: AI APIs, Web Hosting
- Version Control: Git
- Collaboration: GitHub for code versioning and team collaboration
- Frameworks & Libraries: Beginner experience with front-end technologies
